

2019 KS4 Results Commentary

Results rise again at Hetton School

Year 11 results at Hetton School have risen again for the third year in a row. Subjects like English, Maths and Science have led the way with improvements in the percentage of students achieving Level 5 grades and above in all areas.

It is perhaps no surprise therefore that there were some fantastic individual results from students. Students achieved the highest ever number of top grade 9's and there were 26 grade 8s also.

As a school we still have to make improvements overall, but Hetton School is obviously moving in the right direction.

I am incredibly proud of each and every one of our students. They absolutely deserve the individual success this has brought them and I wish them all the very best for their individual futures. I would also like to thank our fantastic staff. They have battled through many changes: in leadership; in specifications and change in accountability to help our students through to the results we have achieved as a school.

We still have further progress to make, but these results also show current Hetton School students who challenge themselves to *Learn to Achieve*, can confidently look forward to making progress.

In September, we will start back with new priority areas to focus on like: improving the impact of teaching and learning over time, raising classroom expectations and implementing new behaviour and rewards systems. We are very excited about the rate of progress at Hetton School and cannot wait to see what we all achieve in 2020!

Craig Knowles, Headteacher

Attainment 8 Overall = 39.5
 Males = 38.6
 Females = 40
 Disadvantaged Students = 31.4

All of the below measures are up from previous year.

4+ English and Mathematics = 51.4%
 5+ English and Mathematics = 28.8%
 4+ English = 73.9%
 5+ English = 51.4%
 4+ Mathematics = 54.1%
 5+ Mathematics = 31.5%
